Introduction

Purpose

The purpose of this document is to describe the requirement specification for the web site “_____Everyday Motivation_____”.

The intended audience for this document is ___the grader___

First it is the contract between you and the client. Second it is for the developer of the site. Two primary goals are:

- 1. Client gets a very good understanding of what you will be delivering.*
- 2. Developer has a very good understanding of what they are going to create.*

Definitions, acronyms, and abbreviations

Sample for the client:

HTML – Hypertext markup language – used to define your content.

PHP – Personal Home Page – language that helps to customize html.

CSS – Cascading Style Sheets – used to define the look of a web site.

W3 Validation – refers to both Html and CSS validation tool provided by the W3c.org. the html validator is located at:

<http://validator.w3.org/>

with the CSS validator located at:

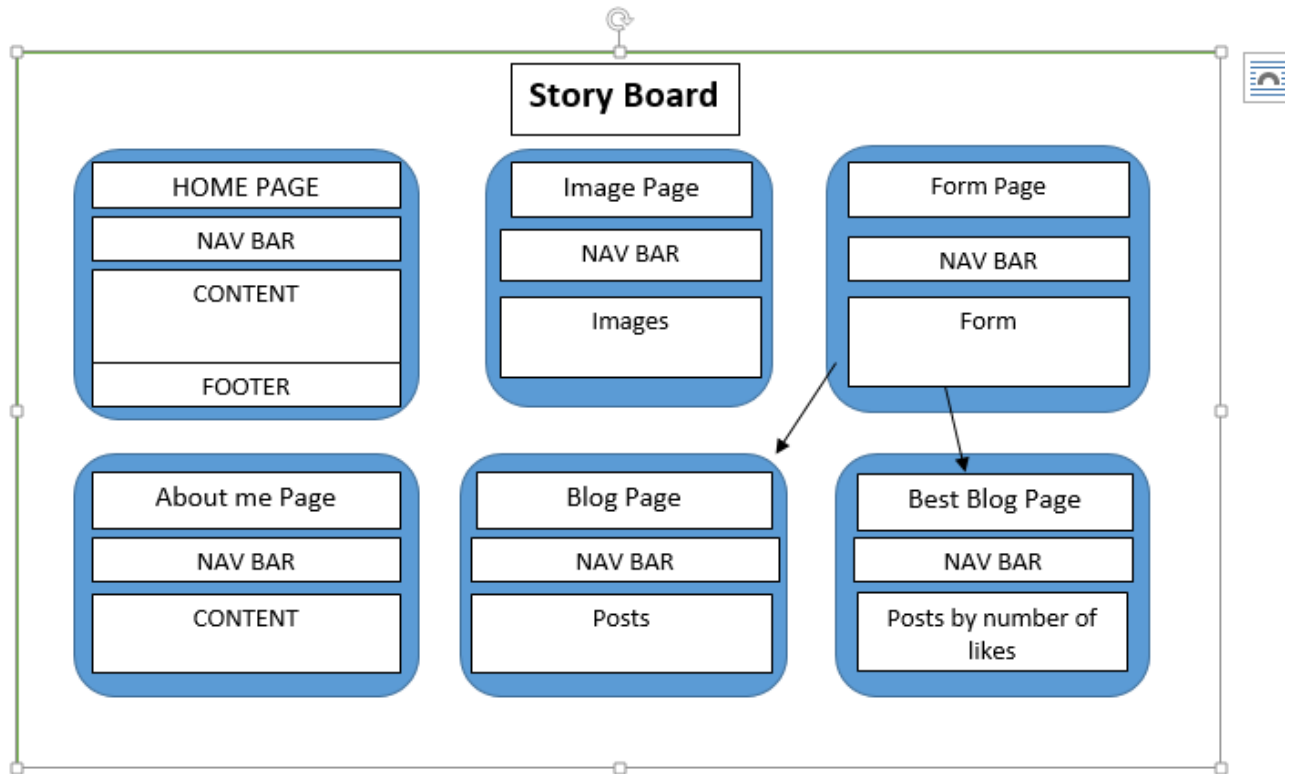

<http://jigsaw.w3.org/css-validator/>

Overall Description

There is an urgent need of stress relievers in the society. And I think that motivational blog is a great way to share what inspires us. And also to know that we are not alone.
